

Annie Zhou

I'm currently a sophomore going to Union County Magnet High School.

I'm a bright, motivated student who enjoys a challenge and picks things up swiftly. I'm always enthusiastic and driven about any task I'm given. I readily look for new experiences and am always thinking of new ideas.

I'm looking for an internship right now, to further increase my knowledge and give me some experience in the field. Despite my age deficit, I'm a hard worker and a quick learner, and guarantee that I can do any job necessary with the same efficiency and twice the enthusiasm as anyone else.
